About me

Front-End Developer with 2+ years of experience in creating dynamic, user-friendly web interfaces, seeking full-time roles that allow me to leverage my skills in front-end development while further honing my back-end development expertise in Next.js, Node.js, and MongoDB

Experience

Front End Developer and Junior Backend Developer   Jan 2024 - July 2024

Tech Horizone

- Expanded skill set to include backend development with Next.js and MongoDB.
- Led several front-end projects using Next.js, ensuring responsive and user-friendly design.
- Collaborated with cross-functional teams to integrate front-end components with backend services.

Front End Developer   March 2023 - November 2023

Wodwes

- Took ownership of building complete websites from scratch using HTML, CSS3, Bootstrap, and Tailwind.
- Enhanced user experience through efficient design and implementation of interactive elements.
- Worked closely with clients to understand requirements and deliver high-quality solutions

Junior Front End Developer   May 2022 - Jan 2023

Tech N Sol

- Assisted in ongoing projects by providing support in developing and maintaining front-end code.
- Gained hands-on experience with industry-standard tools and practices.
- Contributed to team efforts in improving website performance and usability

INDUSTRY ENGAGEMENT

- Engaged directly with business owners to provide website services, showcasing my ability to deliver real value and build strong client relationships.
- Successfully met with the co-founder of Upstyle Apparels and secured a deal to develop their website.
- Conducted meetings with Shelby's Clubs, leading to the successful sale and creation of their website.
- Independently handled client interactions and developed a website for Javed Gloves after securing the project.
